

General Assembly Meet & Greet

13 June 2019

Singapore

MEET THE FRESHEST SOFTWARE ENGINEERING TALENT IN TOWN.

[HTTP://GENERALASSEMB.LY](http://generalassemb.ly)

BUILD YOUR TEAM

A LITTLE ABOUT THE PROGRAM:

SEI is General Assembly's Software Engineering Immersive track.

Think of it as a bootcamp. We certainly have. To us, immersive means commitment all day, every day, for 12 weeks straight. Students with completely different backgrounds, all retrained as Software Engineers.

Browse through to meet the next rockstars in your team. You can view all the student profiles online at profiles.generalassembly.ly.

QUESTIONS?

Contact Surein (Career Coach) at surein.selvan@ga.co if you'd like candidate recommendations, or you are looking for Tech Talent (Software Engineers/Web Developers, UX Designers, Data Scientists/Analysts, Digital Marketers) to be part of your team!

HELLO, I'M:

ANDREW TAN

A FULL STACK DEVELOPER, WITH A BACKGROUND IN GAME DESIGN IS A UNIQUE COMBINATION. WITH MY NEW SKILLS AS A DEVELOPER, I WANT TO BRING GAMIFICATION TO TRADITIONAL WEB APPLICATIONS BY USING GAME DESIGN CONCEPTS TO SOLVE PROBLEMS.

PROJECTS THAT I'M PROUD OF:

The Instaclone Project:

Our goal was to replicate Instagram as closely as possible. This was to demonstrate that anyone is capable of creating a web app that is as iconic as Instagram. We hope this would inspire others to pick up coding!

Dullah Bills Project:

We created a bill splitter app. By incorporating OCR technology, we have the ability to capture data on a receipt and store it digitally. Therefore, users can now keep track and assign who needs to pay what amount without ever using a calculator.

WHEN I'M NOT DEVOTING MY TIME TO CODING, I LIKE TO:

Play a wide genre of video games. I find this to be a source of inspiration for ideas in making a game of my own.

Follow 3D modelling tutorials for characters and props as well as going for long runs. I believe a healthy body means a healthy mind.

OPPORTUNITIES I'M INTERESTED IN:

Full-stack developer/ Front-end developer

HELLO, I'M:

ANDY NG

FULL STACK WEB DEVELOPER LOOKING TO APPLY WHAT WAS LEARNT FROM SOFTWARE ENGINEERING COURSE TO REAL-WORLD PROBLEMS WITHIN A COMPANY.

PROJECTS THAT I'M PROUD OF:

Choco on Rails

A chocolate e-commerce website built with React.js, Ruby on Rails and integrated with Stripe payment API.

Personal Calorie Tracker

Keeping track of your Daily Calories just got easier! Don't know how many Calories should you consume a day? Fret not! Just start here!

Guess the WORDs

See how many words you can get within the time limit when the words are scrambled or play a game of the classic Hangman with friends! This game is written using pure HTML, CSS and Javascript for DOM Manipulation

WHEN I'M NOT DEVOTING MY TIME TO CODING, I LIKE TO:

Exercise

There's nothing like the adrenaline rush felt after a Workout! It improves my mood. That with all the benefits someone can get from being active makes me enjoy exercising.

Karaoke

Singing is definitely one of my Hobbies. Going to Karaoke is something I enjoy as I get to sing to my heart's content! Fan of Mandopop here!

OPPORTUNITIES I'M INTERESTED IN:

Full-Stack Web Developer / Front-End Web Developer

| | | | |
|---------|--------------------|----------------|-----------------------------------|

HELLO, I'M:

CALVIN YEAP

ASPIRING WEB DEVELOPER WHO WANTS TO APPLY HIS NEWLY FOUNDED POWERS FOR THE GREATER GOOD OF SOCIETY.

PROJECTS THAT I'M PROUD OF:

Snake

The first ever game I played on a Nokia phone. I have decided to recreate this nostalgia.

Ever had the problem where you can't decide on where to drink after work? Not anymore!

Quick Pint

Quick Pint is a web app that tracks nearby bars and happy hours and compare its prices and distance to you.

Lets Meet

Lets Meet is a web app that connects friends together with social events. With our polling system, users get a chance to get their opinions taken seriously by your friends!

WHEN I'M NOT DEVOTING MY TIME TO CODING, I LIKE TO:

Brazilian Jiu-jitsu:

A martial arts that involves submission grappling. Currently a blue belt and doing it for 2 years.

Video Games

Currently playing World of Warcraft and Fifa.

Travel + Food

Enjoys travelling to different countries enjoy the different cultures in each country has to offer via the food they offer.

OPPORTUNITIES I'M INTERESTED IN:

Front-End Web Development/ Full-Stack Web Developer

| | | | |

HELLO, I'M:

CHUA SWEE CHIN

PRODUCT MANAGER, WITH 9 YEARS OF EXPERIENCE IN TECH. I WANT TO USE MY NEWLY ACQUIRED SOFTWARE ENGINEERING SKILLS WITH MY PRODUCT MANAGEMENT SKILLS TO CREATE PRODUCTS THAT MATTER.

PROJECTS THAT I'M PROUD OF:

Parking.sg Project:

The Parking.sg mobile app allows the motorist to pay short-term parking charges through their mobile device at all coupon-based public car parks.

The app serve as an alternative mode of payment to paper parking coupons. Motorist will need to key in their vehicle number, select the car park, indicate the parking duration, pay using their credit or debit card and start parking. They also get to extend the parking session remotely via the mobile app.

WHEN I'M NOT DEVOTING MY TIME CODING, I LIKE TO:

Spending time with my family.

I also love reading, video gaming and running. They always put me in a good mood!

OPPORTUNITIES I'M INTERESTED IN:

Software Engineering / Product Management

HELLO, I'M:

CHRISTIAN REYNOSO

FULL-STACK DEVELOPER WITH UI/UX DESIGN BACKGROUND PASSIONATE ABOUT REALISING COMPLEX IDEAS WHILE MAINTAINING THE INTEGRITY BETWEEN FORM AND FUNCTION

PROJECTS THAT I'M PROUD OF:

Dullah Bills Capstone Project:

There are many ways to split the bill. While most choose to go Dutch, there will always be some who end up at the losing end. Over time, this could cause unwanted frictions in groups as the numbers cumulate. While there is also the option of splitting the bill by the item, it is just such a hassle when taxes and charges are involved.

Dullah Bills gets the hassle out of the equation. In order to achieve this, OCR technology was implemented and used as the first layer of input. This effectively gets rid of the initial hassle of individually adding items.

WHEN I'M NOT DEVOTING MY TIME TO CODING, I LIKE TO:

I am keen on craft in general. If it interests me (more often than not), I will not hesitate to sign up for a trial class. Some examples of classes I have taken before include craft beer, mixology and flower arrangement. Though these days I have been looking into pottery.

Having tried a range of hobbies, it is only a given that I have encountered one I fancy more than the rest. Mixology is one that I have continued to practice till this day.

OPPORTUNITIES I'M INTERESTED IN:

Full-stack Developer, Front-end Developer

| | | | |
|---------|--|----------------|---|

| WEBSITE | reynosoturtle.github.io | ALUMNI PROFILE | profiles.generalassemb.ly/chris-reynoso |

HELLO, I'M:

CLAUDIA CHIN

AS A SOFTWARE DEVELOPER WITH PROJECT MANAGEMENT EXPERIENCE, I WISH TO HELP COMPANIES BUILD SOFTWARE THAT STRIKE THE RIGHT BALANCE BETWEEN FEATURE DEVELOPMENT, USABILITY AND USER EXPERIENCE.

PROJECTS THAT I'M PROUD OF:

Speechnote

A note-taking app that turns speech into text. You speak, it writes.

Recipen

A simple and tasteful recipe collection app to keep your recipes in one place.

Quick Pint

As a bar owner, display your drink promos; as a bar goer, find the closest drink promos near you.

Simon

A colour memory game, based off Simon Says, the popular children's game.

WHEN I'M NOT DEVOTING MY TIME TO CODING, I LIKE TO:

Scour the kitchen for ingredients and whip up something edible.

Play the guitar, explore new places and take peaceful walks to the Singapore Quarry in my neighbourhood.

Take photos with disposable cameras and wait for the film to be developed. My snapshots always surprise me!

OPPORTUNITIES I'M INTERESTED IN:

Front-End / Full-Stack Web Development

| | | | |
|---------|-----------------------|----------------|---------------------------------------|

| WEBSITE | claudiachin.com | ALUMNI PROFILE | profiles.generalassemb.ly/claudiachin |

HELLO, I'M:

EDMUND TEO CHANG HAO

WEB DEVELOPER, AND A FORMER DIGITAL MARKETER WITH A KEEN INTEREST IN THE E-COMMERCE INDUSTRY. I HOPE TO USE MY SKILLS TO CREATE A MORE SEAMLESS USER EXPERIENCE FOR MY FUTURE CLIENTS.

PROJECTS THAT I'M PROUD OF:

Q-Tea Project:

As our lunch hour is quite limited, long queues are an absolute nightmare as they cut into our precious time.

Q-Tea was designed to lessen the time needed by having your order sent to the vendor ahead of time so that they can prepare it in advance.

Once you have received the SMS confirmation of your order, just turn up at the shop during your designated timing and collect your order with minimal waiting time.

WHEN I'M NOT DEVOTING MY TIME TO CODING, I LIKE TO:

Reading: A book a day expands your horizons like no other. Apart from reading on the latest tech and world news, I like curling up indoors on a rainy day to read up on fantasy and sci-fi novels.

Boardgames: In today's increasingly digitally connected world, I relish the chance to hang out with my family and friends through good old fashioned analog gaming.

Tennis: I also play tennis regularly to keep myself physically fit and mentally sharp.

OPPORTUNITIES I'M INTERESTED IN:

Front End Development, Full Stack Development, E-Commerce

HELLO, I'M:

EO SIANG EE

FORMER CORPORATE SPREADSHEET WARRIOR TURNED JAVASCRIPT 'HACKER'. MOTIVATED TEAM PLAYER WHO IS KEEN TO LEARN FROM OTHER DEVELOPERS. PASSIONATE ABOUT USING TECHNOLOGY TO SIMPLIFY END-USERS' ROUTINES.

PROJECTS THAT I'M PROUD OF:

Mind Your Own Property:

Sometimes landlords just want a convenient place to track when rental payments from their tenants are due; without having to flood their calendar with reminders. MYOP displays timely reminders for each tenancy. The colour on the countdown timer changes as the due date draws nearer. A NodeJS with Express-Psql app.

Connect 4 - Game:

In this simple JavaScript and canvas based game, two players compete to be the first to 'connect' four matching tokens in a line.

WHEN I'M NOT DEVOTING MY TIME TO CODING, I LIKE TO:

I give my best in what I do, and I am inquisitive by nature. Hence, come break, I am also particularly selective with my leisure activity: *Reading*.

Alright, I am not all that stoic. Really. I own a customised 1997 Ducati Monster, and I thoroughly enjoy *riding* my monster with fellow ducatista; particularly on weekend cafe getaways.

OPPORTUNITIES I'M INTERESTED IN:

Full-Stack Web Development / Property Tech

| | | | |
|---------|---------------------|----------------|-------------------------------------|
| EMAIL | siangeeeo@gmail.com | GITHUB | github.com/seeo |

HELLO, I'M:

KHAIRI RUSYDI

A FULL STACK DEVELOPER WITH TWO YEARS OF SYSTEM ADMINISTRATIVE EXPERIENCE. CONSTANTLY LOOKING FOR AVENUES TO EMPOWER PEOPLE THROUGH TECHNOLOGY TO IMPROVE OUR COLLECTIVE QUALITY OF LIFE.

PROJECTS THAT I'M PROUD OF:

focusNow Chrome Extension:

I used ReactJS to create a Google Chrome browser extension to override the new tab page with a customisable todo list that saves my todo items even if I quit the browser.

SG Muslim Prayer Spaces Finder:

I created a JS/Node/Express/PostgreSQL web app that helps muslims find the nearest mosque or space to perform their prayers in Singapore. I've incorporated Google Maps API to calculate the distances and routes from the user's current location to the nearest prayer space.

WHEN I'M NOT DEVOTING MY TIME TO CODING, I LIKE TO:

Read books and manga, watch anime, or binge shows on Netflix. My favourite genres are currently fantasy and crime!

During weekends when I don't feel like staying at home, I like to go out hiking or take long walks visiting museums or different places in Singapore.

OPPORTUNITIES I'M INTERESTED IN:

Web Development / Front-End / iOS Development

| | | | |
|---------|-------------------------|----------------|---|

HELLO, I'M:

LIEW JIA WEN

AN ASPIRING WEB DEVELOPER WITH A BACKGROUND IN ELECTRICAL ENGINEERING. I AM PASSIONATE ABOUT DEVELOPING APPLICATIONS THAT MAKE EVERYONE'S LIFE EASIER.

PROJECTS THAT I'M PROUD OF:

Typing game:

Like the name suggests. Putting your typing skills to the test.

Forexviewer:

Able to view forex market exchanges with currency pairs.

Meetup Scheduler:

An app that let a group of friends vote on the chosen dates to schedule a meetup session.

WHEN I'M NOT DEVOTING MY TIME TO CODING, I LIKE TO:

Inline-skating

Enjoy the cool breeze by the seaside and working out at the same time.

Forex

Technical analysis on currency pairs.

Learn

Interested in diving, piloting a plane and manoeuvring a yacht.

OPPORTUNITIES I'M INTERESTED IN:

Full-stack Web Developer / Front-end Web Developer / Back-end Web developer

| | | | |

HELLO, I'M:

MARCUS LEE

AMBITIOUS DEVELOPER WITH ASPIRATIONS TO BUILD A SOLID CAREER IN TECH. ROUTINELY WORKING ON PROJECTS OUT OF CURIOSITY TO LEARN ABOUT THE CONSTANTLY CHANGING WORLD OF TECHNOLOGY.

**PROJECTS THAT I'M PROUD OF:
DURIAN ECOMMERCE:**

Probably the most demanding of my projects was a simple ecommerce app.

The goal started with the bare basics - User login, product, checkout, payment.

Down the road it kept growing and many implementations such as market analysis, which checked the prices of other competitor's websites.

Stripe payment, text/email notifications, and Google location API are other noteworthy features of the app.

WHEN I'M NOT DEVOTING MY TIME TO CODING, I LIKE TO:

Keep it simple - Just like my code. Dinner with the family or a quaint date-night sets me up for the week.

Game night aka LAN @ a friend's place is always something to look forward to.

OPPORTUNITIES I'M INTERESTED IN:

Software Engineering / Developer Roles / Front-end

| | | | |

HELLO, I'M:

MOSES LEE

THE MACHINE LEARNING ERA IS HERE. WITH MY PASSION MACHINE LEARNING AND LOVE FOR INTRICATELY BEAUTIFUL EVEN IF COMPLEX CODE, I ASPIRE TO BUILD APPLICATIONS THAT BRING SOLUTIONS WHERE CONVENTIONAL METHODS ARE FOUND LACKING.

PROJECTS THAT I'M PROUD OF:

Tetris AI:

Based on the machine learning Genetic Algorithm, the application generates an artificial intelligence competent at tetris through natural selection gene inheritance over several generations much like how evolution works.

**Form Builder for Singapore
Gymnastics:**

A highly customizable form building app that focuses on data validation and is also able to facilitate in sorting data tailored to the client's requirement which would take hours to organise in excel.

**WHEN I'M NOT DEVOTING MY TIME TO CODING, I
LIKE TO:**

Read novels, funny articles, and The Book from rust-lang.org

OPPORTUNITIES I'M INTERESTED IN:

Software Engineering / Backend Developer / Machine Learning Engineer

| | | | |

HELLO, I'M:

MUHD HATTA YUNUS

I AM A PASSIONATE, OBJECTIVE-DRIVEN INDIVIDUAL WHO HAS AN UNWAVERING RESOLVE AND ENJOYS CHALLENGES. AS A FULL STACK DEVELOPER, I ASPIRE TO USE MY EXPERIENCES AND CREATIVITY TO HELP OTHERS BRING ABOUT POSITIVE CHANGES TO THE QUALITY LIFE OF OTHERS.

PROJECTS THAT I'M PROUD OF:

Tetris 2.0:

The fond memories of playing Tetris inspired me to create this first app using Javascript. The game was modified with a twist - extra shapes were added to bring the challenge to the next level.

Trello Clone:

Trello's app organize and prioritize projects in a fun, flexible, and rewarding way. As an avid believer of productivity methods, I enjoyed developing this app. This project gave me a sound foundation of React.js as it provided the basic components needed to create it.

WHEN I'M NOT DEVOTING MY TIME TO CODING, I LIKE TO:

Work with youths in organisations and schools. Developing them has always been my passion.

Also travelling and trying out new adventures excite me. The experiences are rejuvenating and open my eyes to see the world differently.

OPPORTUNITIES I'M INTERESTED IN:

Full Stack Web Development/ Software Engineering

HELLO, I'M:

SEAN TAN

PREVIOUSLY A SOFTWARE QA ENGINEER IN THE BANKING AND FINANCE INDUSTRY. MY DESIRE TO BUILD SOLUTIONS THROUGH CODING DROVE ME TO JOIN WEB DEVELOPMENT AT GA. NOW I AM A BUDDING WEB DEVELOPER WHO STRIVES TO GET BETTER EVERYDAY.

PROJECTS THAT I'M PROUD OF:

Amnesia:

A simple 2D game where players have to find matching cards to unveil part of the background image.

Centsible Dollars:

A financial savings app where users set a savings goal and track their progress. Charts provide a visual aid for users to track their goal and monthly savings.

Durian E-commerce:

An e-commerce website for durians where customers can place orders, make payment and receive confirmation on their orders.

WHEN I'M NOT DEVOTING MY TIME CODING, I LIKE TO:

Attending French classes:

I enjoy learning languages as it helps to stimulate the mind and opens up a brand new perspective when travelling abroad.

Planning my next holiday:

Having spent some time overseas in the past, the thought of a new adventure to an unexplored city/ country excites me. Always looking forward to my next trip.

OPPORTUNITIES I'M INTERESTED IN:

Front-end / Back-end / Full-Stack web development

HELLO, I'M:

SHIOW WEI JUN

**FORMER MECHANICAL ENGINEER. NOW A FULL-STACK DEVELOPER,
PASSIONATE ABOUT TECHNOLOGY AND WANTS TO CREATE IMPACTFUL
APPLICATIONS.**

PROJECTS THAT I'M PROUD OF:

Dullah-Bills:

Developed a receipt bill splitting solution using Optical Character Recognition (OCR) API to retrieve data on receipt. ReactJS and classic vanilla CSS with compiled with self-made SCSS libraries for the front-end. PostgreSQL and Express for the back-end, and Node.js for the server environment.

Reddit:

Level up your book reading! Log and share your reviews on what you have read with other like-minded members. Create bookshelves for and record your reading statuses. Made with love using Ruby on Rails and CSS Bootstrap.

WHEN I'M NOT DEVOTING MY TIME TO CODING, I LIKE TO:

Travel

I absolutely love what the unknown offers. Finding balance and perspectives.

Swim

And who wouldn't want to be a double paddled speed boat? Not me.. I occasionally float.

OPPORTUNITIES I'M INTERESTED IN:

Full-Stack Development/ Backend Developer /Front-End/ Consulting

| | | | |
|---------|---|----------------|---|

HELLO, I'M:

SITI HERDA NURYANI

FULL STACK DEVELOPER WITH AN ADVENTUROUS SPIRIT. MY INTUITION AND DISCERNING ABILITIES ENABLE ME TO CREATE APPLICATIONS THAT ARE INTERESTING, AS WELL AS FUN TO INTERACT WITH!

PROJECTS THAT I'M PROUD OF:
TRIPPER

A trip manager application that keeps track of your trips, flights, expenses, to-do list and even the emergency number of the country you're travelling to!

DULLAH BILLS

An application that helps you split your bills using Optical Character Recognition (OCR) technology.

MUNCH!

Eat the dropping fruits and avoid everything else. An interactive game that can be played on browser or mobile.

WHEN I'M NOT DEVOTING MY TIME CODING, I LIKE TO:

Research on where to go and create a bucket-list as I love travelling and being a thrill-seeker!

Watch movies and catch up on all the dramas/shows that I missed.

Hang out with my friends.

OPPORTUNITIES I'M INTERESTED IN:

Full Stack Developer / Front-end Developer

HELLO, I'M:

TERENCE SIOW

**AN ASPIRING DEVELOPER WITH BACKGROUND IN CHEMICAL ENGINEERING
AND 4 YEARS OF EXPERIENCE IN THE PHARMACEUTICAL INDUSTRY.**

PROJECTS THAT I'M PROUD OF:

Choco-React

A chocolate e-commerce website built with React.js, Ruby on Rails and integrated with Stripe payment API.

Instaclone

A clone of the popular Instagram app built with Ruby on Rails, Javascript and integrated with Cloudinary API.

Needs & Wants

A fuss-free expense tracker with informative charts built with Express on Node.js, PostgreSQL and Chart.js.

Pinky & Brain

A "Pinky & the Brain"-themed typing game made interactive with Javascript and CSS animations.

WHEN I'M NOT DEVOTING MY TIME TO CODING, I LIKE TO:

Brushing up on my Korean and Japanese

I'm a language addict! I've been learning Korean and Japanese for a few years and I hope to pick up a few more in future.

Reading the news

I like to keep myself abreast of the latest news not only for investment purposes but also to hold meaningful conversations with people around me.

Exercise

I like to keep my body and mind active by running and playing various sports. It's good for stress relief as well!

OPPORTUNITIES I'M INTERESTED IN:

Front-end / Full-stack / Back-end development / Consulting

| | | | |

HELLO, I'M:

VALENLYN CHUA

I AM A DEDICATED WORKER WITH 1.5 YEARS OF STARTUP EXPERIENCE. I LOVE HELPING COMPANIES GROW.

PROJECTS THAT I'M PROUD OF:

🤔 What We Really Want

My app provides a solution to the Abilene Paradox, helping teams make better decisions together.

🌱 Water Your Plants at the Right Time

My app fills the gap where common reminder and calendar apps fail—I allow plant owners to create and receive custom repeat reminders via email and calendar events easily, preventing plant deaths and heartbreak.

WHEN I'M NOT DEVOTING MY TIME TO CODING, I LIKE TO:

Making and selling my artwork on Etsy, creating content (@AwYeahCatGifs) on Twitter, and mostly living my best life as a multi-tasking queen—illustrating comics while listening to a podcast.

I also enjoy shooting the breeze with my friends over beverages fermented by yeast. 🍷

OPPORTUNITIES I'M INTERESTED IN:

Full Stack Web Development / Frontend Web Development

| | | | |
|---------|--------------------|----------------|---|

HELLO, I'M:

YUI TERAI

HARD-WORKING AND PASSIONATE WEB DEVELOPER WITH A FLAIR FOR CREATING SMART SOLUTIONS. I AM A LIFELONG LEARNER, AND I NEVER STOP LEARNING.

PROJECTS THAT I'M PROUD OF:

Tokyo Walker

A city guide app which gives you ideas to discover Tokyo. You can keep track locations as your favourite, and look back at them whenever you want while walking around in Tokyo!

Photo Journal

A personal photo managed app that inspires you to make your photography more personal and meaningful. It gives you the ability to add description, and organise photos in albums.

WHEN I'M NOT DEVOTING MY TIME TO CODING, I LIKE TO:

Travel

I love to travel because not only is it the ultimate adventure but it also exposes myself to new people, different ways of living, and opens up my mind.

Discover good food

I enjoy eating and discovering good food. I also enjoy sharing the moment talking about "How good it is!" with my husband, family and friends.

OPPORTUNITIES I'M INTERESTED IN:

Front-End Web Development / Full-Stack Web Development
